## **PROFESSIONAL EXPERIENCE**

### **Bed Bath and Beyond LLC**

**Union, NJ**

*UX Front End Developer*

*February 2018 – Present*

- Daily duties included building, modifying, and testing responsive React components as per business and technical needs.
- Attended daily standup meetings and managed work load based on agile methodology.
- Assisted in the migration of approximately 1000 pieces of data content to Drupal CMS.
- Researched, documented, and maintained component library and created modular components in DSM Storybook.
- Independently leveraged backbonejs, requirejs, handlebarsjs and bootstrap to build templates and themes for ChristmasTreeShops.com.
- Researched and implemented performance enhancing features on ChristmasTreeShops.com including optimizing all images and SVGs, minifying JS and CSS, and auditing and removing unnecessary or unused scripts.
- Became subject matter expert in WCAG 2.1 AA Standard to assist in Accessibility Audits for Bed Bath and Beyond, BuyBuyBaby, and Christmas Tree Shops.
- Created internal Accessibility documentation and guidelines to assist Developers and Designers in following standards.

### **B&H Photo**

**New York, NY**

*Front End JS Developer*

*August 2015 – February 2018*

- Worked with Java backend developers to implement data heavy API calls to create complex financial data charts and applications.
- Leveraged vanilla javascript and bootstrap to create internal sales reports for company executives.
- Worked with UX team to create vendor application for invoicing and retail goods claiming.
- Updated internal application User Interfaces from UX designs.

### **ADP, LLC**

**Roseland, NJ**

*Application Developer*

*March 2014 – July 2015*

- As part of the UX Strategy team, researched and compiled guidelines and toolsets for on-boarding web developers.
- Initiated monthly meeting for company web developers to communicate concerns and ideas about ongoing UX Strategy.
- Created prototypes for new products and product components through the use of Bootstrap, PHP, JQuery, and HTML in collaboration with UX design team.
- Developed an internal intranet application using Wordpress to house component library and white papers.
- Modified and created Wordpress plugins to meet the needs of business objectives and requirements.

- Performed full stack development on internal applications including setting up servers and connecting to company LDAP single-sign-on API.
- Created a marketing parallax site for sales team leveraging scrollmagic and greensock js.
- Researched white paper on UX Form Handling and Accessibility guidelines.
